

3-tool stack audit

Give every job 1 owner, expose the overlap and decide what stays.

SHIFT & LEAD GUIDE DELIVERY EXAMPLE

Prepare: the approved assistant helps create the guide. Capture: Lumail saves the popup email, delivers the file and starts the sequence only when the matching workflow is active. Publish or deliver: Blotato publishes the post and sends the keyword DM link on supported Instagram and Facebook channels. Store each response once, with 1 clear owner.
