

Meta AI safe-use card

Use public, low-risk information. Keep private business information out.

BEFORE YOU PASTE ANYTHING

META APP

LOW-RISK TASK

INFORMATION OR PROMPT YOU PLAN TO USE

SHIFT & LEAD EXAMPLE

Paste only a published guide summary. Ask for 3 caption angles or a quick visual concept. Use no protected client assets. Remove unsupported claims, then check rights, accuracy and brand fit before publishing.

1 Public input

Is every input already public or invented only for this test?

☐

Yes

Continue to question 2.

☐

No

Remove private details or use an approved business tool.

2 Private details

Does it include customer, employee, financial, contract or login information?

☐

Yes

Stop. Keep it out of the consumer AI chat.

☐

No

Continue to question 3.

3 Human review

Can a person check the result before it is sent or published?

☐

Yes

Use Meta AI for a draft or idea, then review it.

☐

No

Do not use the result in the business process.

4 Screenshot test

Would you be comfortable if the prompt appeared in a public screenshot?

☐

Yes

The low-risk test can proceed.

☐

No

Move the task to an approved system with the correct controls.

CHOOSE 1 FINAL ACTION

Use Meta AI only when the information is safe to share, the result is easy to check and the task needs no controlled business access.

☐

Proceed with a public, low-risk draft.

☐

Replace details with a public or invented example.

☐

Move to an approved business system.
